New Rhode Island Reds—Rose Combs.

No breed ever before known has sprung so rapidly in favor. Their great beauty, and wonderful laying qualities are truly a delight to every owner.

They are the best general purpose fowl—the one for profit. Just the right size, extremely hardy and vigorous, and heavy winter layers. It don't pay to keep indifferent—run-out fowls; the loss is enormous. Get a good start in this grand new breed, and then sell stock and eggs to your neighbors.

I offer choice eggs, carefully packed—15 for \$1.50—30 for \$2.80—45 for \$4.00—75 for \$6.00. Order Early.

Address, Miss Rena Terpening, Highland, N. Y.

The Resurrection Plant. | Siempra Viva.]

This exceedingly rare and wonderful plant in its dry state, is a shrunken ball of tightly coiled leaves and stems, apparently dead. In this form it will live a hundred years or more. When immersed in tepid water—the leaves unfold, and the whole plant is quickly resurrected and transformed into a rosette of beautiful velvet green, both odd and, marvelous. It can be resurrected again and again indefinitely—if allowed to curl up dry each time. Do not plant them.

The whole plant kingdom cannot show anything more astonishing. It is a rare and beautiful thing—a most interesting curiosity to all. You could not find a more unique or pleasing present to give your friends. I have a large stock of selected plants—and am sure that they were never before offered at such low prices. 1 plant 15 cts. 2 for 25 cts. 8 for \$1.00.

TEMPERANCE, PURITY, AND GODLINESS.

Our old friend A. T. Cook, of Hyde Park, N. Y., sends out a nice catalog of garden seeds, etc., and actually takes space on its crowded pages to plead for temperance, purity, and godliness. It is refreshing to find a seed catalog that not only refuses to sell to bacco seed, nor anything else that, in his opinion, will not be a reasoubstantial benefit to his customers, but uses its valuable space to remonstrate with the boys on commencing to use tobacco. Brief exhortations for righteousness are scattered all through its pages.

It contains a large percentage of sugar and is much relished by milch cows and sheep. One of the best of keepers. Farmers should give root crops more attention, The wonderful results of feeding roots are plainly seen in the health and condition of the health and condition of the animals, and in the greatly increased yield of milk and rich, golden butter in cows. EXTRA PROLIFIC POP CORN.

This remarkable new variety is the most astonishing yielder ever found among Pop Corn. Its enormous yields seem almost fabulous, for it produces 4 to 12 good ears on every stalk. Pops well soon as cured. Ears are 6 to 8 inches long, filled with light colored grains—very handsome. Stalks grow 6 feet high. Prof. With-

erell of Davenport, Iowa says "I selected 10 stalks on my farm with 121 ears, or an average of 12 ears to the stalk; one stalk had 19 ears." Was such a yield ever before heard of? Its popping qualities are remarkable, very large, and delicious flavor; 3 pints will make 1 bushel popped. You can raise 100 bushels of ears on an aere. Be sure and include this Pop Corn in your order. Pop Corn is a great money crop. Choice seed, genu-ine, packet 10 cts., 3 for 25 cts. 15 for \$1.00.

They always bring good prices. This is well worth looking after. If you have no boys or girls plant a patch yourself and report result.

They have a remarkable and delicious fragrance, one melon will scent the house. A great curiosity, and sure to attract attention. Packet 5 cts., 6 for 25 cts.

POWELL'S PROLIFIC POLE BEAN.

This wonderful new variety, (first introduced by me,) originated in North Carolina—a few seeds were kindly sent me for trial by Prof. R. S. Powell, who writes:—"They are an extraordinary snap bean, surpassing anything ever seen in our section—bearing profusely, and continuing until frost; they are very tender and palatable—six hills are

enough for a family."

I have found this bean a most rampant grower, one plant filling a pole with a mass of vines—densely loaded with luscious beans. I do not claim too much when I say they

Mr. A. T. Cook. Your Powell Pole Beans are WonderfulLy prolific. I never saw anything to compare with them.

From 16 hills we sold \$7.65 worth

stand up under the load of beans. We had to prop up nearly every pole.

Mrs. C. E. Lissford, Kinards, S. C. wrifes:—From 5 vines we ate beans all summer, and then gathered over one-half gallon of seed. They were the admiration of the neighborhood: I have picked a full mess of beans for dinner, without changing position at the vine. Our summer was dry.—but the vines continued green and bearing, while all other kinds of beans dried up; they are the best bean I ever saw grow, and I cannot command words to express the true value of such a garden treasure.

Mr. A. T. Cook, Your Powell beans were the grandest I ever saw.

They continued green and bearing long after all other beans were dead. I was greatly pleased with all the seeds and especially so with the extras.

# The Great Prize Pumpkin.

KING OF THE MAMMOTHS

This grand, colossal variety is without a rival: it astonishes everybody by its mammoth size and heavy weight. Indeed no other rumpkin has ever attained

such enormous weights, or been awarded as many prizes. Think of it, a single pumpkin weighing 298 lbs. (See Cut.) Is not this the greatest of :11 pumpkins? In France they have been grown to still greater size, and as many of my customers have as good, rich soil—as highly productive, as any there is in France or anywhere else on the face of the earth, I see no reason why they cannot be grown much larger here. The flesh and skin of this monstrous pumpkin is a bright golden color, very fine grained, and of excellent quality. Notwithstanding its enormous size, it is one of the best pie or table pumpkins ever grown, and is a splendid keeper. I hope all enterprising pumpkin growers will give this variety a trial. You will be sure of a prize at your County Fair. Full directions on every packet, giving best methods of planting etc. to secure the largest specimens. See offer below. Extra seed saved from selected LARGE pumpkins.

Packet 10 etc. 3 for 25 ets.

ar EVERY PERSON who receives this Catalog should surely take advantage of the marvellous opportunities for making money, or securing valuable Premiums free of cost. Please tell your Club-Agent friends, and bright Boys and Cirls—of my matchless inducements for orders.

"There is no unbelief; Whoever plants a seed beneath the sod, And waits to see it push away the clod, He trusts in God."

MY SUPERIOR SEED is the very best I can grow or get. None are cheaper QUALITY considered. I do not try to compete with foreign trash, or that grown from scallions and refuse of crops. I could sell such for 2 cts. per packet—but they would be dear as a gift. With an experience of 25 years in gardening I know the volue of high grade seeds. I have in the past, do now, and always will maintain this high standard.

True Headquarters seed, latest selection from gigantic blooms, much superior to the original strain—only 20 cts. per Packet. 3 for 50 cts. 6 for \$1.00.

# White Plume, Self Blanching Celery.

THE EARLIEST VARIETY.

THE EARLIEST VARIETY.

This is the best of the so called Self Blanching varieties, as it needs but little banking up. Its eating qualities are equal to the best of the older sorts being tender and crisp, solid, and of a pleasing nutty flavor, while its white feather-like foliage places it ahead of all others as a table crnament. More largely grown than any other. If any have failed to grow fine celery, they should try this. Pkt. 10 cts.
